9. Reason for Service:

Complaints received that the instrument would not allow them to perform any functions and the screen displayed the message error 75 heater-system. I arrived to the station and observed the instrument displaying the same error message.

10. Comments:

Operational condition of the instrument was assessed by viewing the instrument and observing the error message.

The instrument was placed out of service and sent back to Draeger for evaluation.

6. Alcotest Instrument Serial Number: ARUM-0043	7. Simulator Component Serial Number: N/A	8. Temperature Probe Component Serial Number: N/A

9. Reason for Service:
I responded to the Cherry Hill Police Department for a semi-annual calibration of their Alcotest. While on scene I received complaints stating that the Alcotest experienced Control Test Failures on three subsequent Breath Tests. (Sequential file numbers 1827, 1829 and 1833)

10. Comments:
Operational condition of the instrument was assessed by reviewing the performance history of the instrument via the data downloads and the aforementioned alcohol influence reports, Sequential file numbers 1827, 1829 and 1833. This revealed that the control test failures are due to results outside of tolerance. Instrument was placed out of service and returned to Draeger Safety Diagnostics for evaluation.
