Tree Planting – Permitted Species

Excerpt from Chapter 21 – §21-4.2 Permitted Species: The varieties of trees that can be planted on public property or in the public ROW shall be non-invasive, native to New Jersey, and appropriate for the location where they are being planted. Permitted trees listed in §508.E.2 of the Cherry Hill Township Zoning Ordinance and/or in any ROW Replacement Tree List prepared by the Director of Public Works or his/her designee in consultation with the Cherry Hill Environmental Board, shall be used as a guide for the selection of trees, based upon on-site conditions and tree suitability for the specific location. Street trees shall not interfere with utilities at grown height.
