

# 'Jim Wilson' Moonglow Sweetbay Magnolia

*Magnolia virginiana*

## TREE DETAILS

### Growth Speed

Medium to Fast

### Mature Height

10' - 20'

### Mature Spread/Width

10' - 20'

### Shape

Columnar

### Sun Preference

Full Sun, Partial Sun/Shade

### Soil Preference

Acidic, Loamy, Moist, Rich, Sandy, Silty Loam, Well-Drained, Wet

### Highlights

While it may not produce as many blooms as other magnolias, the sweetbay magnolia should not be counted out of your landscape plans. This tree flowers late in the spring, avoiding much of the frost that can spoil a blooming tree's beauty. It also attracts a wide variety of songbirds with its fall fruit.

This elegantly shaped flowering tree is a great choice for a specimen or patio tree.
