

CHERRY HILL ENVIRONMENTAL BOARD

“Help Nature: Conservation Community Service”

Do you need community service hours for school? Are you a Scout who needs to complete a Bronze, Silver, or Gold Award Girl Scout project or a Boy Scout troop, Eagle or Hornaday nature-based project? Does your community or faith-based organization want to perform community service? The Cherry Hill Environmental Board (CHEB) can help in all these areas and more.

CHEB directly helped 29 Scouts complete an Eagle Scout project, a troop of Girl Scouts earn their Bronze award, and a host of Cherry Hill students earn needed community service hours. Their efforts improved Cherry Hill’s Open Space lands and the trails on those lands.

Churches, and corporations have dedicated their time to improve pollinator gardens, remove invasive species, and improve trails, all to help the natural areas in our community.

Want to help? Want to be involved? Want to make a difference? The Cherry Hill Environmental Board will tailor a conservation project to meet the needs and capabilities required. For example, a tree planting event being schedule this Spring. It’s a win-win.

For more information please contact Earle Seneres, Cherry Hill Environmental Board Liaison at eseneres@chtownship.com or 856-424-3203.
